behind natural selection using an experimental system involving green crabs preying on periwinkle snail. Students are able to "violate" each assumption in turn to explore whether evolution by natural ...

Darwinian Snails | SimBio

Darwinian Snails by SimBio. What Would Darwin Do? Experiment With Snails! Darwinian Snails helps students overcome common confusions about evolution. Built around a fun and engaging simulated system, students conduct a series of experiments to "discover" the conditions required for evolution by natural selection to occur. Instant feedback throughout and an integrated autograded quiz make this an especially popular intro-bio exercise, working equally well as homework or as an in-class activity.
