This tutorial will introduce you to FlowJo and to the 6 steps involved in analyzing a basic immunophenotyping experiment. 1.

FlowJo Basic Tutorial - Flow cytometry

Self-organizing maps (SOMs) are a form of neural network and a wonderful way to partition complex data. In our lab they're a routine part of our flow cytometry and sequence analysis workflows, but we use them for all kinds of environmental data (like this).). All of the mainstream data analysis languages (R, Python, Matlab) have packages for training and working with SOMs.

Tutorial: Self Organizing Maps in R | The Bowman Lab

Tutorial lessons 1 1.1 Introduction The tutorials are independent of the rest of the document. The primarily objective is to help you learn quickly the flrst steps. The emphasis here is \learning by doing". Therefore, the best way to learn is by trying it yourself. Working through the examples will give you a feel for the way that MATLAB operates.
