of the Net Generation, learning theory, and information technology on learning spaces. Keeping learning principles in mind, he contends that learning spaces for the Net Generation will be described more by the activities they enable than the technology they contain. Just as our notion of classrooms may need to be expanded to learning spaces,

Plan The Next Gen (Plan TNG) is a group dedicated to impacting the world through education services and programs. Daisy Ng is the Chief Education Officer of Plan TNG and in her journey as a young mother, an epiphany came to her one day. In 2010, both her first child and iPad were born.

### **Plan TNG - Educating The Next Gen**

Abstract. The Net Generation has grown up with information technology. The aptitudes, attitudes, expectations, and learning styles of Net Gen students reflect the environment in which they were raised -- one that is decidedly different from that which existed when faculty and administrators were growing up. This collection explores the Net Gen and the implications for institutions in areas such as teaching, service, learning space design, faculty development, and curriculum.

Written by Michael Fisher The next generation of students is already here! Generation Alpha was born in 2010 and their oldest members are just now entering our classrooms. These children are virtually born with devices in their hands and are already being labeled as Generation Glass. Without explicit instruction, this generation already: Intuitively navigates digital devices [...]
