### Malta Prehistory And Temples Malta's

The Megalithic Temples of Malta are several prehistoric temples, some of which are UNESCO World Heritage Sites, built during three distinct periods approximately between 3600 BC and 2500 BC on the island country of Malta. They had been claimed as the oldest free-standing structures on Earth until the discovery of Göbekli Tepe. Archaeologists believe that these megalithic complexes are the result of local innovations in a process of cultural evolution. This led to the building of several temples

### Megalithic Temples of Malta - Wikipedia

Malta's earliest stone structures predate Stonehenge and the Pyramids and historians still don't know what happened to the civilization that produced them. They seem to have virtually disappeared from history without any indication of their fate. So far, nobody has found mass graves or other indicators of mass famine, war, or disease.

### Malta: Prehistory and Temples (Malta's Living Heritage ...

THE PREHISTORIC ARCHAEOLOGY OF THE TEMPLES OF MALTA The oldest buildings in Europe are found in Malta - older than the Pyramids of Egypt. The occupation and settlement of Malta by modern humans began approximately 7,000 years ago, when the first Neolithic Farmers crossed the 50 mile-wide straits that separate the islands from Sicily.

### The Prehistoric Archaeology of the Temples of Malta

The Neolithic cultures of the island produced a range of buildings and artefacts that make Malta a treasure chest for those interested in the ancient world. It is worth remembering when faced with these temples; the earliest of their kind, that they were built before the pyramids or the megalithic structures of Western Europe .
