Install PNP4Nagios for Nagios Core on CentOS 7 - CentLinux

I have Nagios up and running with Nagiosgraph running alongside it (which was a nightmare to install but it is now working). I get various gaps in the graphs which so far I have been unable to fix. I see a lot of people are now recommending PNP4Nagios instead - is this package better than NagiosGraph? Does it work with Nagios Core 4.x?

About My Nagios Migration. I just finished a project of Nagios migration to a new hardware and also a newer CentOS version and architecture. The IP address of the Nagios server didn't change! I was migrating Nagios from CentOS 5.9 32bit to CentOS 6.4 64bit and of course the objective was to transfer all of the existing data - all of the defined hosts, services, email alert scripts and so ...
