Getting Started with Arduino products | Arduino

Description. This course is intended for the Arduino beginner who wants to learn how to write code for their Arduino. The course concentrates on how to program your Arduino rather than electronics and is based on my best selling book Programming Arduino: Getting Started with Sketches. The course explains in simple terms what is meant by a program and then leads the participant in a step-by-step manner through the process of writing their first sketch (Arduino program).

Programming Arduino: Getting Started with Sketches | Udemy

This website is dedicated for beginners to learn Arduino. You will learn: how sensors/actuators work, how to connect sensors/actuators to Arduino, how to program Arduino step by step. The detail instruction, video tutorial, line-by-line code explanation are provided to help you quickly get started with Arduino. No matter who you are. No matter how your programming skill is.

Arduino Tutorials | Arduino Tutorial

I recommend you to check getting started tutorial on Arduino as well. An Arduino program that is written using C language programming is usually called a sketch.
