Department of Defense MANUAL

The GSCP uses three levels of classification: OFFICIAL, SECRET and TOP SECRET. This is simpler than the old model and there is no direct relationship between the old and new classifications. "Unclassified" is deliberately omitted from the new model. Government bodies are not expected to automatically remark existing data, so there may be cases where organisations working under the new system still handle some data marked according to the old system.

Government Security Classifications Policy - Wikipedia

Online Library Security Classifications Guide

The United States has three levels of classification: Confidential, Secret, and Top Secret. Each level of classification indicates an increasing degree of sensitivity. Thus, if one holds a Top Secret security clearance, one is allowed to handle information up to the level of Top Secret, including Secret and Confidential information.
