respectively;

How to Write Heading Tags for SEO - The Ultimate Guide ...

The paper or chapter title is the first level of heading, and it must be the most prominent. Headings should be styled in descending order of prominence. After the first level, the other headings are subheadings—that is, they are subordinate. Font styling and size are used to signal prominence.

How do I style headings and subheadings in a research ...

Top-level headings communicate what's most important and divide content into major subjects. Make them as specific as you can to catch the reader's attention. When there's a lot to say under a top-level heading, look for two or more distinct topics, and use second-level headings (subheads) to break up the large section into more scannable chunks.

Headings - Microsoft Style Guide | Microsoft Docs

Heading visuals. The heading level and visual appearance (e.g. size, boldness) should align, but a page must have a good structure regardless of how it looks. This has two key implications: Don't style text to look like a heading unless you use heading mark-up. The level of heading is not the same as the text size.

How to structure headings for web accessibility | Nomensa

Most theses in Psychology will employ two or three levels of headings. If your thesis uses two levels, they must be Levels 1 and 3. If it employs three levels, it must be Levels 1, 3, and 4. Level 2 is used only if you need four levels (rarely) and; Level 5 is used only if you need 5 levels (very rarely).

LEVELS OF HEADINGS

Add, edit, or remove links from the top link bar of a non-publishing site. If your site is using a unique

top link bar (that is, it is a top-level site or it does not inherit its top link bar from a parent site), you can configure the links that appear on the top link bar for the site.

Customize the navigation on your SharePoint site - Office ...
A system of levels of headings and subheadings can be used to correspond to the levels of subordination in an outline (i.e., the major ideas in your outline can be given a first level heading, the supporting ideas can be given a second level heading, and so on).

How To Use Headings In Your Writing
The sections named above are considered major elements of your paper, so these sections should be treated as the highest level of headings. Major levels (highest level) titles in your APA title are centered on your paper. They should be formatted in boldface and the important words of the heading should be capitalized.

Formatting APA Headings and Subheadings - ThoughtCo
Major (Level 1) Headings: For chapter titles, appendices, and front matter sections. These always begin on a new page. A chapter title, along with the prefix " Chapter N " - where N is the number of the chapter - should be centered and placed about 1 1/2 inches down from the top of the page.
