In the meantime, Windows PowerShell 2.0 will remain a part of Windows 10 and Windows Server 2016, and we have no plans to remove it until those dependencies are mitigated. That's it! In summary, the deprecation of Windows PowerShell 2.0 doesn't mean that it's being removed yet, but you should work to move off of it, as we may decide to remove it in a future release. When we do have more concrete plans to remove it, we'll give fair warning before taking it out.
